

# “What comes after Metformin – an evidence approach in 2021?”

## **Professional Development for the Campbelltown Clinician’s Reference Group**

The purpose of the Campbelltown Clinician’s Reference Group is to bring together the local diabetes specialist team, General Practitioners, Practice Nurses and Allied Health Providers from across the region to provide updates on Diabetes Integrated Care..

The first session will include:

- Presentation of “What comes after Metformin?”
- The end of the finger prick glucose tests – the increasing role off continuous monitoring in general practice.
- Opportunity for you the health professional to experience the Abbott FreeStyle Libre Flash Glucose Monitoring System first hand and its benefits.

**When:** 17<sup>th</sup> March 2021 - 6:30pm registration for a 7:00pm start.

**Where:** Campbelltown Catholic Club, 20/22 Camden Rd, Campbelltown

If you would like to register for the meeting, please complete this form and fax it back to (02) 4634 3215.
